SUMMARY

Finance and AI hybrid with 10+ years of institutional expertise spanning credit risk, investment operations, enterprise billing, and multi-million dollar client finance — paired with hands-on production engineering using Python, LLM APIs, and agentic automation frameworks. Proven ability to embed within financial teams, decompose complex decision workflows (credit memos, IC prep, DDQs, portfolio review), and translate them into scalable, AI-powered product features. Forward-deployed mindset: moves fast, thrives in ambiguity, and delivers at the intersection of institutional finance, product, and applied AI.

AI FINANCE & PRODUCT ENGINEERING EXPERIENCE

PURSUIT New York, NY | AI-Native Software Engineering Resident | October 2025 – Present

- Selected for an intensive residency building production-ready, AI-native applications with advanced LLM APIs and orchestration frameworks — mirroring the forward-deployed model of embedding AI within live enterprise workflows.
- **Justif.AI (Agentic Engineering Hackathon):** Built a B2B LegalTech compliance pipeline using Google DeepMind for contract clause extraction + Nimble for live SEC EDGAR auto-pull — directly analogous to automating credit memos, DDQs, and IC documentation for investment teams.
- **rAlvalry (McKinsey QB Finance Hackathon):** Architected an automated competitive intelligence dashboard with an integrated AI Strategy Engine — live data parsing, market share mapping, and automated SWOT generation for investment-grade decisions.
- **Fanzone Unlocked (Pursuit x Zero.xyz Hackathon) — Crowd Favorite & Zero Award Winner:** Built and deployed a fully agentic web app with \$USDC micro-payment rails on Base in 120 minutes, demonstrating high-velocity production deployment.
- **Amplif.ai (Cross-Cohort Hackathon Winner):** Co-created a full-stack community platform end-to-end in 2 hours — consistent delivery under real constraints.

FINANCE & OPERATIONS BACKGROUND

OMNICOM MEDIA GROUP New York, NY | Manager, Client Finance Operations | April 2024 – December 2024

- Directed financial stewardship and operational integrity for a multi-million dollar media and advertising portfolio for L'Oréal USA.
- Streamlined reconciliation pipelines across Mediaocean and Prisma frameworks, reducing monthly billing variances by 18% through targeted data audits.
- Led cross-functional reporting alignments between agency finance leads, brand management teams, and executive stakeholders to safeguard margin health and optimize corporate compliance.

IPG KINESSO New York, NY | Client Financial Analyst | February 2023 – March 2024

- Orchestrated end-to-end financial operations, internal controls, and client billing visibility for high-volume AdTech and data-driven marketing portfolios.
- Automated legacy tracking templates using advanced Excel models, cutting down repetitive weekly reporting overhead by 12 hours per cycle.
- Collaborated directly with corporate controllers to reconcile high-density transaction ledgers, ensuring rigorous adherence to global revenue recognition policies.

Flix North America New York, NY | Finance Associate | Nov 2021 – Oct 2022

- Managed enterprise-grade billing, high-volume account reconciliations, and variance analysis for mid-market and enterprise telecom clients.
- Identified and captured billing discrepancies, recovering over \$140,000 in leaked operational revenue within the first 12 months.

MetTel (via Bruin) | Enterprise Billing Manager · New York, NY | Apr 2019 – Dec 2021

- Managed enterprise-grade billing, high-volume account reconciliations, and variance analysis for mid-market and enterprise telecom clients.
- Identified and captured billing discrepancies, recovering over \$140,000 in leaked operational revenue within the first 12 months.

Union Square Hospitality Group · New York, NY | Accounts Receivable & Payable Analyst Sep 2018 – Feb 2019

- Overhauled unit-level cost controls, vendor cash flows, and P&L line-item analysis across premium culinary and hospitality operations.

Emerson Financial Services · New York, NY | Accounts Payable & Finance Analyst Aug 2008 – Oct 2009

- Managed full-cycle AP operations — high-volume vendor invoices, ledger reconciliation, and compliance with internal controls and payment SLAs.
- Produced financial analysis and management reporting, building the structured data workflow discipline foundational to AI-driven finance automation.

CREDIT, RISK & INVESTMENT WORKFLOW FOUNDATION

High Risk Credit Analyst & Engagement Manager Australia and New Zealand Banking Group (ANZ) · Philippines | Nov 2013 – Nov 2015

- Executed complex risk assessments, credit volatility evaluations, and restructuring strategies for high-exposure distressed portfolios.
- Mitigated corporate loss provisions by maintaining a consistent 94%+ target achievement rate in high-risk portfolio liquidation and debt mitigation.

Personal Loans Collections Specialist & Early Stage Cards Collections Associate Australia and New Zealand Banking Group (ANZ) · Philippines / AU | Nov 2013 – Aug 2015

- Minimized credit losses through effective negotiation with delinquent customers — designed payment schemes balancing customer needs and bank recovery targets.
- Monitored out-of-pattern credit activity; urgently escalated high-risk accounts and structured rapid-response payment terms for early-stage delinquency.

Credit and Collections Analyst / Credit Specialist iQor (American Express Portfolio) · Makati City, Philippines | Jul 2006 – Nov 2008

- Monitored real-time past-due balances across Australian and New Zealand commercial/consumer portfolios; contacted clients to collect payments and resolved portfolio discrepancies.
