Executive Professional Summary

A highly analytical, results-driven, and innovative Finance Operations Leader and AI-Native Product Engineer with over a decade of institutional expertise bridging high-level corporate finance, credit risk management, and cutting-edge software engineering. Proven success directing multi-million dollar portfolios for global advertising leaders (Omnicom, IPG) and financial institutions, coupled with hands-on technical proficiency in designing agentic workflows, large language model (LLM) integrations, and complex database automation pipelines.

Career Highlights & Background

Pursuit | New York, NY

AI FinTech Manager & Product Engineer | *October 2025 – Present*

- **Enterprise AI & Agentic System Architecture:** Design, prototype, and deploy production-ready LLM pipelines and multi-agent workflows into financial and corporate environments, modernizing legacy processes through an intensive engineering residency focused on enterprise computational automation.
- **Automated Compliance & LegalTech Engineering (Justif.AI):** Architected a B2B compliance and document auditing platform leveraging Google DeepMind APIs for clause extraction and live SEC EDGAR data retrieval, eliminating manual contract review overhead and accelerating regulatory verification.
- **Financial Intelligence & Competitive Analytics (rAlvalry):** Built an automated market intelligence system powered by a custom AI Strategy Engine to ingest real-time financial feeds, map market share shifts, and dynamically generate investment-grade SWOT matrix profiles for strategic decision-making.
- **Rapid Full-Stack Product Delivery (Amplif.ai):** Engineered and deployed an end-to-end community asset portal in a 2-hour rapid-development sprint, managing full-stack web architectures while enforcing strict Git branching strategies, code reviews, and CI/CD best practices.
- **Cross-Functional Product Ownership & Execution:** Translate complex financial operations and compliance requirements into technical roadmaps, bridging engineering, product management, and finance domain expertise to build scalable, AI-driven FinTech solutions.

Omnicom Media Group | New York, NY

Manager, Client Finance Operations & Financial Analyst | *February 2023 – December 2024*

- **Enterprise Finance Leadership (OMG / BCL):** Promoted to manage client finance operations for Omnicom's marquee L'Oréal account, driving multi-million dollar margin protection, revenue integrity, and budget disclosures for C-suite stakeholders.
- **Cross-Agency Integration (IPG Kinesso):** Integrated prior experience as Client Financial Analyst at IPG Kinesso to bring specialized programmatic ledger controls and agency billing mechanisms directly into Omnicom's financial operations.
- **Automated Variance Governance:** Engineered dynamic Excel and Power BI data models, reducing manual tracking preparation overhead by 40% and saving 20+ structural hours per business cycle.
- **Pipeline Leakage & Ledger Auditing:** Audited high-density media transactional ledgers across Mediaocean and Prisma, cutting monthly billing discrepancies by 18% and slashing unbilled media by 15%.
- **Process & Dispute Optimization:** Optimized weekly vendor reconciliation audit sequences to collapse payment dispute loops from 10 days down to 3 days.
- **Working Capital Stabilization:** Spearheaded targeted Accounts Receivable collection initiatives, reducing outstanding aging balances by 40% over six months.
- **Commercial Compliance:** Partnered with corporate controllers to review commercial billing contracts and enforce strict alignment with international revenue recognition constraints.
- **Commercial Compliance Review:** Collaborated directly with corporate financial managers and global controllers to evaluate commercial billing contracts, validating total alignment with international revenue recognition constraints.

Flix North America GMBH | New York, NY

Finance Associate | *November 2021 – October 2022*

- **Full-Cycle Accounting & Internal Controls:** Direct full-cycle Accounts Payable (AP) and Accounts Receivable (AR) operations, managing three-way invoice matching, multi-currency ACH/wire disbursements, and high-volume reconciliation routines to protect working capital and cash flow integrity.
- **Month-End Close & Regulatory Compliance:** Spearhead general ledger management and journal entry reconciliations for month-end and year-end close, maintaining corporate financial reporting in strict alignment with US GAAP, state, and federal tax codes to eliminate tax liability exposure.
- **Data-Driven Financial Planning & Analysis (FP&A):** Leverage Power BI and Salesforce relational data cubes to track operational KPIs, perform quantitative variance analysis, and generate predictive financial models for executive leadership.
- **Cross-Functional ERP & Systems Optimization:** Collaborate across cross-functional operations, supply chain, and IT teams to streamline financial workflows, enhance automated ERP reporting accuracy, and optimize general ledger data ingestion processes.
- **Strategic Forecasting & Budget Variance Management:** Analyze market competitive indicators and revenue trends to build flexible budget variance models, providing actionable quantitative data to guide long-term strategic resource allocation and operational planning.
- **Audit Readiness & Risk Mitigation:** Maintain rigorous internal compliance documentation and internal audit controls, significantly reducing processing errors, mitigating transactional risk across diverse regional markets, and ensuring full audit readiness.

MetTel | New York, NY

Enterprise Billing & SaaS Account Manager | *April 2019 – Dec 2021*

- **Revenue Recovery Initiatives:** Managed high-density enterprise telecom data ledgers and customer billing records, discovering invoice errors and recovering over \$140,000 in leaked operational revenue within 12 months.
- **Workflow Automation Architecture:** Standardized and automated data migration and entry parameters inside the proprietary Bruin CRM software layer, significantly eliminating human calculation gaps.
- **SaaS Telecom Expense Management (TEM):** Handled direct business communications and conflict resolution workflows for mid-market and enterprise accounts concerning data audits and structural adjustments.

Union Square Hospitality Group (USHG) | New York, NY

Accounts Receivable & Payable Analyst (Contract) | *September 2018 – February 2019*

- **Multi-Venue Financial Aggregation:** Governed multi-entity transactional entry and sales validation parameters for premium culinary operations, high-volume catering venues, and corporate wholesale networks.
- **Systemic Data Reconciliations:** Leveraged hospitality-specific platforms (Avero, Revel POS, Tripleseat, CaterXpert) alongside Oracle Financials and Sage 100 to execute high-volume invoice generation and aging verification.

Mighty Bowl LLC | New York, NY

Operations Manager & P&L Owner | *November 2015 – August 2018*

- **Comprehensive Fiscal Leadership:** Maintained end-to-end P&L accountability for multi-location hospitality points, directly driving corporate margin expansions and structural overhead containment targets.
- **Supply Chain Logistics:** Formulated vendor procurement guidelines and masterminded supply-side contract renegotiations to stabilize ingredient sourcing costs amid fluid market conditions.
- **Inventory Cost Minimization:** Created data-driven inventory metrics and portion controls that successfully lowered restaurant food waste metrics by 15% across all operational nodes.

Early Career & International Financial Operations

Australia and New Zealand Banking Group (ANZ Market) | Philippines

High Risk Credit Analyst & Engagement Manager | November 2013 – November 2015

- **Distressed Asset Restructuring:** Evaluated portfolio risk and structured financial settlement strategies for high-exposure, delinquent personal credit accounts and volatile lending portfolios.
- **Loss Provision Mitigation:** Maintained an elite 94%+ target performance metrics benchmark across debt-mitigation pipelines, heavily curbing corporate credit default write-offs.
- **Early Stage Card Compliance (Nov 2013 – Jul 2014):** Supervised out-of-pattern account behaviors and organized immediate remediation schedules to arrest early-stage delinquency risks under regional banking regulations.

Dell Technologies (United Kingdom & Ireland Market) | Philippines

Cluster Manager & Tier 2 Customer Success Specialist | October 2009 – December 2012

- **Technical Escalation Resolution:** Managed complex product configuration disputes and technical architectural escalations, successfully optimizing retention metrics in high-stress customer environments.
- **Enterprise Portfolio Upselling:** Maintained direct knowledge of enterprise operating systems and infrastructure software products, routinely hitting upgrade metrics.

Emerson Financial Services (UK&I Market) | Philippines

Accounts Payable & Financial Reporting Analyst | August 2008 – October 2009

- **Audit Readiness Controls:** Constructed standardized accounting sub-ledgers summarizing cross-departmental expense trends, ensuring seamless document verification for annual internal and external audits.
- **General Ledger Integrity:** Verified asset capitalizations and adjusted monthly ledger entries, matching the Accounts Receivable ledger with corporate trial balances.

iQor (American Express Portfolio) | Philippines

Credit & Collections Analyst | July 2006 – November 2008

- **International Portfolio Supervision:** Monitored real-time aging balances across commercial and consumer portfolios throughout the Australia and New Zealand geographic footprints.

Academic Background & Credentials

- **AI-Native Software Engineering Fellowship** | Pursuit, New York, NY (Oct 2025 - Oct 2026)
- **Associate of Applied Science (A.A.S.) in Business Administration & Accounting** | ASA College, Manhattan, NY
 - *Metrics:* 3.83 GPA | President's List | Phi Theta Kappa International Honor Society
- **Bachelor of Arts (B.A.) in Psychology** | University of Batangas, Philippines
- **Technical Multimedia & Web Page Design Certificate** | Informatics Education Ltd., Philippines

Core Technical & Domain Expertise

- **AI Ecosystem & Software Engineering:** Python (Asynchronous Execution, Scripting), SQL (PostgreSQL, Complex Joins), JavaScript, RESTful APIs, Git/GitHub Version Control, Prompt Engineering, Multi-Agent Frameworks, Retrieval-Augmented Generation (RAG), Vector Embeddings, Firecrawl Data Harvesting, Automation Pipelines.
- **Institutional Finance & Operations:** Consolidated P&L Management, Operating Expense (OpEx) Variance Analysis, Credit Risk Evaluation, Revenue Recognition Policies, General Ledger (GL) Audits, Capital Expenditure Tracking, Three-Way Invoice Matching, Working Capital Optimization, Cash Flow Forecasting.
- **Enterprise Platforms & Systems:** Mediaocean, Prisma Frameworks, SAP, Oracle Financials, Salesforce CRM, NetSuite, Workday Adaptive Planning, QuickBooks Online (Certified), Bruin Software, Power BI, Tableau, Jira, Asana
